Comment. Brandis airfield was previously occupied by a fighter regiment equipped with MiG-15s. According to the present report it appears that the regiment left the field in late October. No additional information has been It is believed that the regiment together with its division headquarters and the two fighter regiments in Gressenhain were shipped by rail to the U.S.S.R. about 20 October 1951. The aircraft with blue and vellow upper edges on their rudder assemblies were assigned to the fighter

yellow upper edges on their rudder assemblies were assigned to the fighter division stationed in Grossenhain and Brandis. 25X1A
